

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

About Google Book Search

Google's mission is to organize the world's information and to make it universally accessible and useful. Google Book Search helps readers discover the world's books while helping authors and publishers reach new audiences. TO THE BOARD OF EDUCATION :

The Executive Committee for the care, government and management of the Free Academy, herewith present a draft of the Ninth Annual Report to the Board of Regents of the University of the State of New York, on the operations of the Free Academy for the Academic year ending on the 21st day of July, 1857, and recommend the adoption of the following resolution :—

Resolved, That the Annual Report of the operations of the Free Academy be adopted and printed, and that a copy thereof, duly authenticated by the President and Clerk of the Board, be transmitted to the Board of Regents, and the Common Council of the city of New York.

All which is respectfully submitted.

Academy.

REPORT.

In pursuance of the seventh subdivision of the third section of the "Act to amend, consolidate, and reduce to one Act the various Acts relative to the Common Schools of the city of New York," passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th, 1855, the Board of Education, through the "Executive Committee for the care, government and management of the Free Academy," in respect to the several subject matters required to be reported on by them, present this their Ninth Annual Report, showing the operations and condition of the Free Academy of the city of New York, for the Academic year ending on the 21st day of July, 1857, the day of the annual commencement of the said Institution.

The Committee do not deem it necessary, at the present time, to enter upon a labored argument to prove the beneficial effects which the Free Academy has exerted upon the general cause of education in the city of New York; nor do they consider themselves called upon to give an extended exposition of its character, purposes, or sphere of operations, in order to make it more fully understood or better appreciated. It is too well known to the public, and especially to those who manifest an interest in the character of the public educational institutions of the city, to need anything more than a mere reference to its operations to show the estimate in which it is held by a discerning public. The large number of students who seek entrance, yearly, within its walls, to enjoy the rich privileges which a munificent public here afford to all classes, prove quite con-

clusively the popular character of the Institution. And when the fact is also remembered that no other Institution affords superior facilities, or furnishes more ample provisions for obtaining a thorough knowledge of all the essential branches appertaining to a sound education, it is not surprising that such large numbers seek admittance within its walls, and desire to enjoy its advantages.

Important changes have been made in the terms of admission to the Academy, which are embodied in the Report. The large accessions to the Institution rendered it necessary, during the past year, to increase the corps of instructors.

The same liberal friend of education has given another proof of the interest which he feels in the Academy by again providing the necessary funds to be distributed among the students as money prizes. The manner of the distribution to the successful competitors will be found in the Report.

The distribution of money prizes, and the award of books to the "Prize Speakers," in addition to the medals heretofore established in the Academy, has awakened a lively interest and a commendable zeal among the students. To obtain one of these prizes is considered a high honor.

The graduating class of 1857 consisted of twenty-one members, seventeen of whom received the degree of *Bachelor of Arts*, and four that of *Bachelor of Sciences*.

The degree of *Master of Arts* was also conferred on twelve graduates, in regular course, and that of *Master of Sciences* on two.

A detailed account of the condition and operation of the Free Academy for the year, are shown in the following statements :—

To the Common Council of the City of New York, and to the Board of Regents of the University of the State of New York :

1. GROUND FOR ACADEMIC BUILDINGS.

The remarks made in reference to the original cost of the Library are also applicable to the original cost of the Apparatus.

Amount paid from the City Treasury for Apparatus, as per last Report.....	\$8,087 93
Amount paid since the date of last Report.....	513 93
Total.....	<u>\$8,601 86</u>

The following is a list of the additions made to the Apparatus since the date of last Report :

Bellows, with glass sides, for organ pipes.
Glass Pipe, to show nodal lines.
Pipe, with reed trumpet.
Vox Humana.
Parchment Pipe.
Pipe, with Chromatic Scale.
C. Pipe, with slide.
Six Models in wood, to illustrate the subject of Light and
Crystallography.
1 pair of Gas Holders.
1 Apparatus for the phenomena of Diamagnetism.
1 Tangent Compass.
Part of a suite of Chemical Preparations for the lecture table.
200 Bottles.

Natural History, Physiology, &c.

The Department of Natural History contains about three thousand specimens, no additions having been made thereto since the date of last Report. They are as follows :—

Specimens in Conchology,		500
“ Mineralogy,		2,200
“ Geology,		300

Physiology, &c.

1 Manikin.
1 Skeleton.
1 Separated Skull.
1 Enlarged Model of the Eye.
1 “ “ “ Ear.
1 “ “ “ Larynx.

Laboratory.

The Laboratory of the Free Academy is well provided with the necessary apparatus of glass and porcelain, and with an extensive suite of chemical preparations, to which additions are constantly made by the Professor having charge of the department. The Physical Cabinet is also large, and contains most of the best French and German instruments, imported expressly for the Academy. This collection contains all the apparatus necessary for the experimental illustration of the phenomena of Light, Heat, Electricity, and Magnetism.

LIST OF APPARATUS.

The following is a complete list of apparatus, and of the Casts and Models in the Department of Fine Arts, belonging to the Free Academy :—

6. *Renaissance*.—Parts of a Pilaster. Second part of the same with Capital, &c.

8th. *Study of Ornament*.—Reverse of Leaf, Minerva upon Scroll, Vine Mounting, Fragment of Foliage, Leaf from base of Column of Trajan, Ornamental Column, Ornamented Base.

V. TITLE TO PROPERTY, INCUMBRANCES, ETC.

The said property is free from all incumbrances.

VI. OTHER ACADEMIC PROPERTY.

There is no other property belonging to the Academy than the lot, building, library and apparatus above described, except fuel, stationery and furniture, partly worn, the present value of which cannot be stated with certainty.

VII. DEBT.

The Academy is free from debt.

VIII. BOOKS AND APPARATUS COMPARED WITH CATALOGUES, ETC.

All the books and articles of apparatus possessed by the Academy, have, since the date of the last Report, been, by or under the direction of the Board, carefully examined and compared with the original catalogues or inventories of the books and apparatus belonging to the Academy; and on such examination and comparison, all the books and apparatus belonging to the Academy, and which ought to be in its possession, were duly found to be in such possession, in good order and condition.

Lectures are delivered once a week to the Freshman Class, on popular applications of Chemistry. There are frequent exercises in Composition and Declamation. Weekly Lectures are also delivered to the same class, in the Department of Natural Sciences.

Lectures on popular Chemistry and the Natural Sciences are delivered weekly to the Sophomore Class. Frequent exercises in Composition and Oratory are also required.

Lectures on the Fine Arts, their history and application to manufactures and to decoration, are delivered to the Junior Class (first term). Themes and Forensic Discussions, and Original Declamations, are required as regular exercises from the Class; and in the second term, Lectures are delivered on popular applications of Natural Philosophy.

The first term of the Senior Class, Lectures are delivered on Ancient and Modern Inventions; and the second term, weekly Lectures on the most Celebrated Constructions of Ancient and Modern times; also, original Compositions and Declamations.

Lectures are also delivered, during the Academic year, on the Laws of Nations and the Constitution of the United States; on Intellectual and Moral Philosophy; on the Formation and Structure of the Greek and Latin Languages; on the History of the English Language and Literature; on the History and Formation of the French Language; and on the History and Formation of the German Language and Literature.

Weekly Lectures are delivered to the Introductory Class, in the department of Natural Sciences, on Astronomy, Geology, Human Physiology, Physical Geography, Anatomy, &c.

Lectures on History are also delivered to the Freshman and Sophomore Classes.

XVII. NUMBER OF STUDENTS.

(A) The whole number of students (including Classical and all others) belonging to the Academy on the said twenty-first day of July, 1857, was four hundred and fifty-nine.

(B) The whole number of students (including Classical and all others) who have been taught in the Academy during the said Academic year, or a part of said year, was six hundred and sixteen.

Six Resident Graduates, who are not included in the above number of 616, also received instruction in various branches of study, taught at the Academy, during the said Academic year.

(C) The number of students belonging to the Academy on the said twenty-first day of July, or who belonged to it during a part of the year ending on that date, and who are claimed by the Board of Education to have pursued for four months of said Academic year, or upwards, Classical studies, or the higher branches of an English education, or both, according to the true intent and meaning of the Ordinance of the Board of Regents, of the 20th October, 1853, was five hundred and ninety-nine.

A schedule of the names, ages and studies of the said students so claimed by the said Board of Education to have pursued Classical studies, or the higher branches of an English education, or both, is hereto annexed, duly verified by oath, as required by the laws of the State, and the Ordinance of the Regents.

XVIII. PRICES OR RATES OF TUITION.

The Institution being supported by the city, there is no charge made for tuition.

XIX. ACADEMIC TERMS, VACATIONS, COMMENCEMENT, ETC.

The Academic year is divided into two terms, the first commencing on the first Wednesday of September, and ending the Friday preceding the first Monday of February; the second,

commencing at the end of the first examination, (which continues eight days,) and ends on the Tuesday before the fourth Wednesday of July in each year, on which day the Annual Commencement takes place. There are three vacations during the year—the Summer Vacation, from commencement, six weeks; the Winter Vacation, from the 25th day of December to the 1st day of January, inclusive; and the Spring Vacation, from the last day of April, inclusive, one week.

According to the rule heretofore established by the Board of Education, the Academic year of this Institution ends on the *Tuesday before the fourth Wednesday of July* in each year, and on which day the Annual Commencement takes place.

There are no Academic exercises on Saturday of each week, on the day celebrated as the anniversary of American Independence, and on Thanksgiving day.

XX. PRICES OF BOARD.

Students are not allowed to reside or board in the Academy; they reside or board with their parents or guardians.

XXI. "NATURAL HISTORY OF NEW YORK."

The "Natural History of New York," in fifteen volumes, has been obtained for the Academy, pursuant to provisions of law, from the Secretary of State. It continues, up to the date of this report, to be the property of the Academy, and is now in its Library.

XXII. PHYSICAL EDUCATION.

No provisions are made for physical education, properly speaking.

Instruction and Examinations.

The departments of instruction remain the same as at the date of last Report. Several additions have been made in the Corps of Instruction since the date of the last Report, viz.; the appointment of a Tutor in the Latin and Greek Languages and

Literature; one in the department of English Language and Literature; one in the department of History and Belles-Lettres; one in the department of Mathematics; one in the department of Drawing; one in the department of the French Language and Literature. Two Tutors have resigned, since the date of the last Report, in the department of the Ancient Languages and Literature.

There are two examinations during the Academic year. The first, commencing on the first Monday of February, is held for the purpose of testing the capacity of the student for advancement, and continues eight days. The second (for advancement), commencing on the fourth Monday before commencement, continues eight days, at the close of which candidates for admission are examined. These examinations are public, and no student is allowed to advance to the next class without being found qualified for such advancement. Students of the Introductory class are not allowed to advance to the Freshman class unless they shall be *fourteen years of age* at the commencement of the next term, and are qualified in every other respect, according to the By-Laws of the Board of Education.

The members of each class are examined by oral and written questions in the same study; and no desire, so far as the Board are advised, has been manifested to depart from this method. The arguments heretofore urged in favor of this system over that of an *exclusively oral* examination are considered as conclusive, and are referred to as containing the views of the Board more at large on the subject.

The admission of candidates takes place but once in the Academic year, and not semi-annually as heretofore; but candidates may be admitted at either of the regular examinations, to any of the classes, provided they comply with the terms for admission, as to attendance at the common schools, proper age, shall pass the proper examination in the requisites for admission, and an examination, also, satisfactory to the Faculty, in the previous studies of the class or department to which they wish to be admitted.

The examination of candidates for admission takes place immediately after the general examination in July, in each year, and continues at the same hours, from day to day, until con-

cluded. No person is allowed to be present at this examination except the instructors in the Academy, members of the Board of Education, and other school officers; neither are the names of the candidates, or the schools from which they come, made known to the instructors conducting the examination, but each candidate is designated, during examination, by a number given to him on a card by the Principal.

Terms of Admission.

No student can be admitted to the Academy unless he reside in the city, be fourteen years of age, shall have attended the common schools in the city twelve months, and shall pass a good examination in

Spelling,	Elementary Book-keeping,
Reading,	History of the United States,
Writing,	Algebra, as far as quadratic equations, inclusive,
English Grammar,	Plane Geometry, five books, and
Geography,	the Constitution of the United
Arithmetic,	States.

Students who remove from the city lose the privileges of the Academy.

The classes are annual, and the full course of study embraces five years.

The exercises, during term time, continue daily (except Saturday and Sunday), from a quarter before nine o'clock, A. M., to three o'clock, P. M.

The Board of Education is authorized by law to confer the usual collegiate degrees, on the recommendation of the Faculty.

Graduates may become Resident Graduates, and continue their studies at option.

The following changes have been made in the terms of admission since the date of the last Report, viz.; the required age, from thirteen to fourteen years; five books of Plane Geometry; and the Constitution of the United States.

Course of Studies.

The course of studies pursued in the Academy are the following, and are at the option of the students, viz. :—

A full course with Ancient Languages.

A full course with Modern Languages.

A partial course, embracing any studies less than either of the full courses.

The choice of each student as to the course of studies he wishes to pursue is required to be made in writing, and registered and filed at the Academy.

Degrees.

Two degrees are conferred on students graduating from the Academy—that of *Bachelor of Arts* on those who have pursued a full course with Ancient Languages, and that of *Bachelor of Sciences* on those who have pursued a full course with Modern Languages.

Library.

The Library contains a large collection of valuable and well-selected books, and is increasing by the additions being made to it, from time to time, from funds appropriated by the Regents of the University of the State of New York, from the Literature Fund.

Students of the Senior, Junior, Sophomore and Freshman classes are allowed to draw books from the Library on alternate Fridays during term time, under certain conditions. Those who do not obtain *two-thirds* of the maximum, have received any demerit marks for misconduct, or have not been punctual in their attendance, are not entitled to receive books from the Library.

It is believed that in a few years the Academy will possess one of the most valuable College Libraries in the State. It contains many works which probably can be found in but few even of our public Libraries. The works are mostly of a scientific and general character, and it contains a very limited number of works of a light and evanescent character. In selecting books for the Library, particular reference is had to the wants both of the *Instructors* and *Students*.

MEDALS AND TESTIMONIALS.

The Pell Medal.

In 1849, Duncan C. Pell, Esq., placed in the hands of Trustees \$500 to be invested, and the income applied annually, forever, to procure a gold medal, to be awarded by them to the student in the Free Academy who shall have made the greatest proficiency in his general studies during the year.

In 1856, the above named donor, by a deed of trust, authorized the Trustees of the said Fund, if to them it should be deemed expedient, to devote a portion of the income of the Fund invested in procuring a *silver medal*, to be awarded, from time to time, to such student as might become entitled thereto.

Present Trustees of the Fund:

ANDREW H. GREEN, Esq.

Number of Students who have pursued the Classical Studies, or Studies in the Higher Branches of English Education, or both, for four months.

All the students named in the foregoing schedule have pursued Classical studies, and studies in the higher branches of English Literature, as therein stated, for four months or upwards, (except those numbered 114, 146, 152, 337, 459, 545, 559, 586,) being in all five hundred and ninety-nine.

City and County of New York, ss.: Horace Webster, being duly sworn, doth depose and say, that he is the Principal of the New York Free Academy, situated in the City of New York, whose Annual Report to the Regents of the University is hereto attached; that said Report is made in conformity to the latest instructions of the Regents of the University, and in conformity to the Act of the Legislature of the State of New York, amendatory of the several School Acts, passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th 1855; that the preceding Schedule contains a true statement of the names, ages, and studies of the several students belonging to the said Academy, on the twenty-first day of July, 1857, or who belonged to it during part of the year ending on that day, and who are claimed to have pursued, for four months of said year, or upwards, classical studies, or the higher branches of English Education, or both, according to the true intent and meaning of the ordinance of the said Regents of the 20th October, 1853; that none of said students are under the age of twelve years, and that such of them as are claimed to be classical students have pursued all the preliminary studies required by the rules of the said Institution, as are specified in the preceding Report, to make them such, and have also read the books or parts of books specified in the preceding schedule; that such of them as are claimed to be students in the higher branches of English Education had, before they were considered as such students, attained such proficiency in reading and writing, and acquired such elementary or preliminary knowledge as is required by the eighth section of said ordinance; that they have all subsequently pursued the requisite studies, and performed the requisite exercises in composition and declamation as are specified in the rules of the said Free Academy, and for the period of time required by the said ordinance, to entitle the said Academy to a distributive share of the income of the Literature Fund. All which this deponent affirms to be true, according to the best of his knowledge, information, and belief.

REPORT.

To the Common Council of the City of New York, and to the Board of Regents of the University of the State of New York :

IN pursuance of the seventh subdivision of the third section of the "Act to amend, consolidate, and reduce to one act the various acts relative to the Common Schools of the City of New York," passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th, 1855, the Board of Education of the City of New York, through the "Executive Committee for the care, government, and management of the Free Academy," in respect to the several subject-matters required to be reported on by them, present this their ELEVENTH ANNUAL REPORT, showing the operations and condition of the Free Academy, for the academic year ending on the 19th day of July, 1859, the day on which the annual commencement of said institution was held.

The various details of the financial and other operations of the year, will be found under the appropriate titles in the body of this Report.

It will be seen, by reference to the Report, that a very large number of students (325) was admitted at the examination in July. The number of applicants for admission was 376; of the number admitted, one hundred and fifty-four (154) chose the study of the ancient languages, and one hundred and seventy-one (171) chose the study of the modern languages.

Since the date of the last Report, the following Instructors have resigned, viz.: LEWIS CONDUCT BAYLES, CHARLES HENRY PRATT, FRANKLIN SAMUEL RISING, and JOSEPH ANDERSON.

The following named young gentlemen, graduates of the Free Academy, were appointed, since the date of the last Report, as Instructors at large in said Institution, viz.: SAMUEL GOULD JELLIFFE, DAVID GREEN FANNING, WILLIAM MELLEN BANKS, JAMES GODWIN, and ALEXANDER PHENIX KETCHUM; and LUCIEN OUDIN, Instructor in the Department of the French Language and Literature. Mr. DAVID G. FANNING, resigned April 18, 1859, having received an appointment of Instructor in one of the Grammar Schools in this city.

The award of medals, prizes, testimonials, etc., were distributed to the students entitled thereto, at the Annual Commencement (July 19). The conditions upon which the prizes were awarded, the manner of their distribution, together with the names of the successful competitors, will be found detailed in the Report.

The graduating class of 1859 consisted of thirty members, *twenty-six* of whom received the degree of *Bachelor of Arts*, *three* received the degree of *Bachelor of Sciences*, and one an *Honorary testimonial*, he having pursued a partial course.

Ten Alumni of the Acad my received the degree of *Master of Arts*.

The condition and operations of the Academy, in detail, for the Academic year, ending on the 19th day of July, are shown in the following statements:

To the Common Council of the City of New York and to the Board of Regents of the University of the State of New York :

It has no other real estate than that mentioned above.

III.—ACADEMIC LIBRARY.

The original cost of the Library cannot be stated with any degree of accuracy, as many of the books were donated to the Academy by friends of the Institution. An estimated value, however, is given, which will be found by reference to this and former reports.

The Library contains seven thousand one hundred and seventy volumes, including those named in the list herewith reported; and about eleven thousand text-books and books of reference. The text-books and books of reference form no part of the Library.

Natural History, Physiology, &c.

The Department of Natural History contains about three thousand specimens, no additions having been made thereto since the date of the last Report.

A list of Specimens in this Department is given on page 21.

LABORATORY.

The Laboratory of the Free Academy is well provided with the necessary apparatus of glass and porcelain, and with an extensive suit of chemical preparations, to which additions are constantly made by the Professor having charge of the department. The Physical Cabinet is also large, and contains most of the best French and German instruments, imported expressly for the Academy. This collection contains all the apparatus necessary for the experimental illustration of the phenomena of Light, Heat, Electricity, and Magnetism.

V.—TITLE TO PROPERTY, INCUMBRANCES, ETC.

The property is free from all incumbrances.

VI.—OTHER ACADEMIC PROPERTY.

There is no other property belonging to the Academy than the lot building, library, text-books, casts, models, and cabinet of natural history, described previously, except fuel, stationery, and furniture, partly worn, the present value of which cannot be stated with certainty.

VII.—DEBT.

The Academy is free from debt.

VIII.—BOOKS AND APPARATUS COMPARED WITH CATALOGUES, ETC.

All the books and articles of apparatus possessed by the Academy have, since the date of the last Report, been, by or under the direction of the Board, carefully examined and compared with the original catalogues or inventories of the books and apparatus belonging to the Academy; and on such examination and comparison, all the books and apparatus belonging to the Academy, and which ought to be in its possession, were duly found to be in such possession, in good order and condition.

IX.—SUMMARY STATEMENT.

The total *estimated* value of Academic property, as described in the preceding part of this Report, is as follows :

Present value of Academic lot, buildings and furniture, . .	\$118,686 82
Present value of Library, ...	9,500 00
Present value of Text-Books, ...	12,000 00

Lectures also on the Spanish Language and Literature.

Weekly Lectures are delivered to the Introductory Class, in the Department of Natural Sciences, on Astronomy, Geology, Human Physiology, Physical Geography, Anatomy, &c.

Lectures on History are also delivered to the Freshman and Sophomore Classes.

XVII.—COMPOSITION AND DECLAMATION.

Students are required to be exercised in Composition and Declamation once a month, during the year.

XVIII.—NUMBER OF STUDENTS.

(A.) The whole number of Students (including Classical and all others) taught in the Academy during the first Academic term ending on the 16th day of February, 1859, was six hundred and sixty-two (662), including eleven Resident Graduates.

The whole number of Students (including Classical and all others) taught in the Academy during the second Academic term ending on the 19th day of July, 1859, was five hundred and eighty-three (583), including six Resident Graduates.

(B.) The whole number of Students (including Classical and all others) taught in the Academy during the said Academic year ending on the said 19th day of July, 1859, was six hundred and sixty-four (664.)

(C.) The whole number of Students belonging to the Academy on the said 19th day of July, 1859, or who belonged to it during part of the year ending on that date, and who are claimed by the Board of Education to have pursued for four months of said Academic year, or upwards, Classical studies, or the higher branches of an English education, or both, according to the true intent and meaning of the ordinance of the Regents of the 20th of October, 1853, was six hundred and thirteen, (613.)

A schedule of the names, ages, and studies of the said students, so claimed by the said Board of Education to have pursued classical studies, or the higher branches of English education, or both, is hereunto annexed, duly verified by oath, as required by the law of the State, and the ordinance of the Regents.

XIX.—PRICES OR RATES OF TUITION.

The Institution being supported by the city, no charge is made for tuition.

XX.—GRATUITOUS INSTRUCTION.

Instruction is gratuitous to all the Students of the Academy.

XXI.—ACADEMIC TERMS, VACATIONS, COMMENCEMENT, ETC.

The Academic year is divided into two terms ; the first commencing on the third Wednesday of September, and ending on the Friday preceding the first Monday of February ; the second, commencing at the end of the first examination, (which continues eight days,) and ends on the Tuesday before the third Wednesday of July in each year.

VACATIONS.

There are three vacations in each Academic year ; the Summer Vacation, from commencement to the Tuesday before the third Wednesday in September, inclusive ; the Winter Vacation, from the 25th day of De-

ember, to the 1st day of January, inclusive ; the Spring Vacation, from the last day of April, inclusive, one week.

There are no Academic exercises on Saturday, on the day celebrated as the anniversary of American Independence, and on Thanksgiving day.

END OF ACADEMIC YEAR, AND COMMENCEMENT.

The Academic year of the Academy ends on the *Tuesday before the Third Wednesday of July*, in each year, and on which day the Annual Commencement takes place.

XXII.—SUMMARY STATEMENT OF THE AVERAGE EXPENSES OF STUDENTS IN THE ACADEMY, FOR TUITION, BOARD, ETC.

The Academy being supported by the city, no charge is made for tuition or board. Students are not allowed to remain in the Academy after the daily exercises are over. They reside or board with their parents or guardians.

XXIII.—BOOKS, ETC., RECEIVED FROM THE STATE.

The books received from the State, through the Regents of the University, or otherwise, for the use of the Academy, and now in its library, in good condition, are the following :

XXIV.—PHYSICAL EDUCATION.

No distinct or separate provisions are made for physical education.

TERMS OF ADMISSION, EXAMINATION, ETC.

The examination of candidates for admission takes place immediately after the general examination, in July, and continues at the same hours every day until concluded. No student can be admitted to the Academy unless he resides in the city, be fourteen years of age, shall have attended the common schools in the city twelve months, and shall pass a good examination in

Spelling,	Algebra, as far as quadratic equations,
Reading,	inclusive,
Writing,	Geography,
English Grammar,	History of the United States,
Arithmetic,	Constitution of the United States,
Elementary Book-keeping.	

No candidate can be examined for admission unless he shall present to the Principal of the Academy a certificate in the form prepared by the Executive Committee, signed by the Principal of the School or Schools of which he has been a member, and specifying the age of the candidate, the Common Schools of this city which he has attended, and the length of time of his attendance in each. If the number qualified for admission be more than can be admitted, the preference is to be given to those who have attended the Common Schools the greater period.

At either of the regular examinations, members may be admitted to one or all of the classes, to pursue the studies of any one or more departments, provided they shall have attended the Common Schools the requisite period—shall be of the proper age—shall pass an examination in the requisites for admission, and also an examination satisfactory to the Faculty, in the previous studies of the class or departments to which they wish to be admitted.

No person is allowed to be present at the examination for admission except the instructors in the Academy, the members of the Board of Education and other school officers; neither the names of the candidates, nor the schools from which they come, are made known to the instructors conducting the examinations, but each candidate is designated during such examination by a number given to him on a card by the Principal.

Those students only who are afterwards ascertained to have passed a good examination, are admitted, and their names entered upon the rolls of the Academy.

There are two examinations during the Academic year. The first, commencing on the first Monday of February, is held for the purpose of testing the capacity of the student for advancement, and continues eight days. The second (for advancement), commencing on the third Monday before commencement, continues eight days, at the close of which candidates for admission are examined. These examinations are public, and no student is allowed to advance to the next class without being found qualified for such advancement. Students of the Introductory class are not allowed to advance to the Freshman class unless they are qualified in every respect, according to the By-Laws of the Board of Education.

The members of each class are examined by oral and written questions in the same study.

The admission of candidates takes place but once in the Academic year, and not semi-annually as heretofore; but candidates may be admitted at either of the regular examinations, to any of the classes, provided they comply with the terms for admission, as to attendance at the Common Schools, proper age, shall pass the proper examination in the requisites for admission, and an examination also, satisfactory to the Faculty, in the previous studies of the class or department to which they wish to be admitted.

COURSE OF STUDIES.

The course of studies pursued in the Academy are the following, and are at the option of the students, viz.:

A full course with Ancient Languages.

A full course with Modern Languages.

A partial course, embracing any studies less than either of the full courses.

The full course of Ancient Languages comprises Latin, Greek, and any modern language at the option of the student.

The full course of Modern Languages comprises French, German, and Spanish. The order in which they are pursued is at the option of the student on commencing the course.

The partial course of languages comprises any language or languages, at the option of the student, either as pursued in the full course or in a special course of one year, intended for such students as may have immediate occasion for the use of any of the above-named languages.

The time allotted to the study of each language is laid down in the following schedule, which exhibits the number of recitations per week for each class and term of the Academic year :

The choice of each student as to the course of studies he wishes to pursue, must be made in writing at the time of his admission, and registered and filed at the Academy. It must be made by the parent or guardian, or by the parent or guardian be submitted in writing to the discretion of the Faculty.

The classes are annual, and the full course of studies embraces five years, of two terms each.

DEGREES.

The Board of Education is authorized by law to confer the usual Collegiate Degrees, on the recommendation of the Faculty. The degrees are *Bachelor of Arts*, for those who have pursued a full course with ancient languages; *Bachelor of Sciences*, for those who have pursued a full course with modern languages, and the degrees of *Master of Arts* and *Master of Sciences*.

The Faculty recommend no one as a candidate for either degree whose average standing in any study of the Senior year has fallen below three-fifths of the maximum. Each member of the graduating class is required to write a composition for oral delivery, to be sent in one week before Commencement. Orations and dissertations written for this occasion are not to exceed ten minutes each in length, with the exception of the Valedictory, Salutatory, and Philosophical Orations, which may be extended to twelve minutes.

A Bachelor of Arts, or of Sciences, of three years' standing, may be admitted to the degree of *Master of Arts*, or to that of *Master of Sciences*, provided he show, to the satisfaction of the Faculty, that in the interval he has been engaged in some literary or scientific pursuit, and has sustained a good moral character; application to be made either personally or by letter, at least one month before Commencement, accompanied by an original paper on any subject, and certified under his own hand to be his own composition, written within six months before his application.

LIBRARY.

The Library contains a large collection of valuable and well-selected books, and is increasing by the additions being made to it, from time to time, from funds appropriated by the Regents of the University of the State of New York, from the Literature Fund, and from donations and bequests by private citizens.

Students of the Senior, Junior, Sophomore, and Freshmen classes are allowed to draw books from the Library on alternate Fridays during term time, under certain conditions. Those who do not obtain *two-thirds* of the maximum, have received any demerit marks for misconduct, or have not been punctual in their attendance, are not entitled to the privileges of the Library.

The Professors and Tutors have access to the Library at all times, and

enjoy the right of taking books therefrom, under certain restrictions; and also the privilege of consulting the books in the Library, at all hours of the daily session of the Academy, on application to the Librarian. No books can be taken from the Library, *under any pretence whatever, by any person*, without the authority of the Librarian, and every book so taken is recorded in a register provided for that purpose.

No Library book is allowed to be retained by any instructor or student for a longer period than two weeks, without renewal.

Penalties are attached for defacing, mutilating, or losing books.

All books, whether Library books, books of reference, or text-books, delivered to any instructor or student, constitutes a charge against him of the cost of the book, to be paid for by him unless it be returned in good condition, or its loss or injury satisfactorily accounted for to the Librarian; *and in case of a student, unless it be paid for, or replaced without delay, he is liable to be dismissed from the Academy.* In cases of carelessness, and wanton injury of the books, punishment may be inflicted in addition to reparation.

It is believed that in a few years the Academy will possess one of the most valuable college Libraries in the State. It contains many works which probably can be found in but few even of our public Libraries. The works are mostly of a scientific and general character, and it contains a very limited number of works of a light and ephemeral character. In selecting books for the Library, particular reference is had to the wants both of the Instructors and Students.

MEDALS AND TESTIMONIALS.

The Pell Medal.

In 1849, Duncan C. Pell, Esq., placed in the hands of Trustees \$500 to be invested, and the income to be applied annually, forever, to procure a gold medal, to be awarded by them to the student in the Free Academy who shall have made the greatest proficiency in his general studies during the year.

In 1856, the above-named donor, by a deed of trust, authorized the Trustees of the said Fund, if to them it should be deemed expedient, to devote a portion of the income of the Fund invested in procuring a *silver medal*, to be awarded, from time to time, to such student as might become entitled thereto.

Number of Students who have pursued Classical Studies, or Studies in the Higher Branches of English Education, or both, for Four Months, or upwards.

All the students named in the foregoing Schedule have pursued Classical Studies, and studies in the higher branches of English Education, as therein stated, or four months, or upwards, (except those numbered 30, 45, 99, 144, 154, 237, 45,) being in all six hundred and twenty-three, (623.)

City and County of New York, ss.: Horace Webster, being duly sworn, doth depose and say, that he is Principal of the New York Free Academy, situated in the city of New York, whose annual report to the Regents of the University is herewith annexed; that said report is made in conformity to the latest instructions received from the Regents of the University, and in conformity to the Act of the Legislature of the State of New York, amendatory of the several School Acts, passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th, 1855, that the preceding Schedule contains a true statement of the names, ages, and studies of the several students belonging to the said Academy on the 19th day of July, 1859, or who belonged to it during part of said year ending on that day, and who are claimed to have pursued, for four months, or upwards, Classical Studies, or the higher branches of an English education, or both, according to the true intent and meaning of the Ordinance of the Regents of the 20th of October, 1853, as set forth in the explanations which precede the Schedule; that none of said students are under the age of twelve years, and that such of them as are claimed to be classical students have actually pursued at this Academy, or elsewhere, all the preliminary studies required by the rules of said institution, and by the 6th and 7th sections of said Ordinance of the Regents, to make them such students, and have also read the books, or parts of books, specified in the preceding Schedule; that such of them as are claimed to be students of the higher branches of English Education, had, before they were considered as such students, attained at this Academy, or elsewhere, such proficiency in reading and writing, and acquired such elementary or preliminary knowledge as is required by the 8th section of said Ordinance; that they have all subsequently pursued the requisite studies and performed the requisite exercises in composition and declamation as are required by the rules relating to the said Academy, and for the period of time required by the said Ordinance of the Regents to entitle the said Academy to a distributive share of the income of the Literature Fund; that such of said students as have not pursued, at this Academy, the said preliminary studies, have, on special examination duly made, before entering the said Academy, been found to have acquired as proficiency in said studies required by the said Ordinance, as set forth in the said explanations. All which this deponent affirms to be true, according to the best of his knowledge, information, and belief.

LABORATORY.

The Laboratory of the Free Academy is well provided with the necessary apparatus of glass and porcelain, and with an extensive suit of chemical preparations, to which additions are constantly made by the Professor in charge of the department. The Physical Cabinet is also large, and contains most of the best French and German instruments, imported especially for the Academy. This collection contains all the apparatus necessary for the experimental illustration of the phenomena of Light, Electricity, and Magnetism.

CABINET OF CHEMICAL AND PHYSICAL APPARATUS.

The following is a complete list of the Apparatus and of the Casts and Models in the Department of Fine Arts, belonging to the Free Academy :

PNEUMATICS.

Chamberlain's Air-Pump.
 Condensing Syringe.
 Bell Glasses for Air-Pump (3.)
 Bladder and Hand-Glass.
 Madgeburg Hemispheres.
 Upward Pressure Apparatus.
 Bursting Squares (9.)
 Wire Guard for do.
 Hand Air-Pump.
 Guinea and Feather Glass.
 Water Hammer.
 Balance with Air-Globe and Counterpoise.
 Bell, with Sliding Rod.
 Barometers (2.)

HYDROSTATICS AND HYDRODYNAMICS.

Set of Glasses to illustrate Equilibrium of Fluids.
 Hydrostatic Bellows.
 Archimedes' Screw.
 Working Models of Lifting and Forcing Pumps.
 Hero's Fountain.
 Barker's Mill.
 Glass Balloon (with Jar and Images.)
 Hydrostatic Paradox.
 Halstat's Apparatus for the Pressure of Liquids.
 Apparatus for Body immersed in a Liquid.
 Apparatus for the Decomposition of Water.

GALVANISM, MAGNETISM, ELECTRO-MAGNETISM, HEAT.

Bunsen's Battery of 50 pairs.
 Grove's Battery of 12 pairs (Platina Strips).
 Daniel's Batteries of 6 pairs.
 Wheatstone's Rheostat.
 Galvenometer (Suspension Thread.)
 Vertical Galvanometer.
 Tangent's Compass.
 Large Simple Galvanometer.
 Decomposing Cell (2 Gas Tubes.)
 Apparatus for Attraction and Repulsion of Currents.
 Contracting Helix.
 Magnet revolving around a Conductor.
 Conductor revolving around a Magnet.
 Magnet revolving on its own axis.
 Vibrating Wire (Magnet of three pieces.)
 Revolving Spur Wheel.
 Gold Leaf Galvanoscope.
 De la Rive's Ring.
 Revolving Coil.
 Thermo-Electric Revolving Arch.
 Magnetizing Helix.
 Helix on Stand, with Iron Bar.
 Helialical Ring and Semicircles.
 Large Electro-Magnet.
 Revolving Armature.
 Reciprocating Engine.
 Revolving Electro-Magnet.
 Electro-Magnet, revolving with the Earth's Action.
 Clock-Work Electrotome.
 Magneto-Electric Machine (Brass Legs ; quantity and intensity Helices.)
 Separable Helices and Handles (2.)
 Slat Spirals (3 lbs. each ; 2.)
 Thermo-Electric Series (10 pairs.)
 Thermo-Electric Rectangle.
 Ampere Electrepeter.
 Simple Bar Magnets (4.)
 Compound Bar Magnet.

Simple U Magnet.
 Magnetic Needle on horizontal stand.
 Dipping Needle.
 Set of Steel Bars for Magnetization.
 Morse's Telegraph Model.
 Ruhmkorff's Apparatus for Induction.
 Diamagnetic Apparatus.
 Apparatus for fixing the Electric Light.
 Smee's Battery of 4 pairs.
 Pictet's Brass Mirror.
 Hot Water Cube.
 Regnault's Apparatus for Specific Heat.
 Melloni's Thermo-Electric Apparatus.
 Apparatus for Expansion of Solids.
 " " Conduction of Heat.
 Hydro-Oxygen Blowpipe.
 Davy's Safety Lamp (2.)
 Blowpipe and Table.
 Wrede's Apparatus for Absorption.
 Ring and Ball for Expansion by Heat.
 2 Bulb Tubes for Expansion of Gases.
 2 " " " " Liquids.
 1 Pyrometer.
 Mounted Diaphragm.
 Barton's Button.
 Freezing Apparatus.
 Thermometer of Biot.
 Pair of Gas Holders.
 Six models in wood to illustrate the subject of Light and C^h
 tallography.

MATHEMATICS.

Theodolites (2) and Tripods.
 Surveyor's Compass (2) and Tripods.
 Level.
 Sextant.
 Quadrant.
 Artificial Horizon.
 Surveyor's Chain and Pins (2 sets.)
 Measuring Tape.

GALVANISM, MAGNETISM, ELECTRO-MAGNETISM, HEAT.

Bunsen's Battery of 50 pairs.
 Grove's Battery of 12 pairs (Platina Strips).
 Daniel's Batteries of 6 pairs.
 Wheatstone's Rheostat.

FINE ARTS—CASTS AND MODELS.

This is a choice collection, and affords extraordinary advantages (perhaps unequalled in this country) for the study of ornament and for the general purposes of art. It may be classified as follows :

1st.—CAST OF ELGIN MARBLES.

Presented by CHARLES M. LEUPP, Esq., of N. Y.

Ilissus.

Theseus.

Colossal Head of the Horse from pediment of Parthenon.

Metopes and Frieze of the Parthenon.

Colossal Caryatides, &c.

2d.—CASTS FOR THE STUDY OF THE ANTIQUE.

From Florence, the Vatican, and the Louvre.

1. FIGURE :

Minerva.

Belvedere Hercules.

Torso of the Laocoon.

Torso of Venus of Milo.

2. ALTO AND BASSO-RELIEVO :

Victory.

Dancers.

Chariot Race.

Alcibiades and Aspasia.

Bacchus and Ariadne.

Bacchante and Dionysian Bull.

Fawn and Panther.

Chimera bearing Rome.

6. RENAISSANCE :

Parts of a Pilaster.

Second part of the same with Capital, &c.

8TH.—STUDY OF ORNAMENT.

Minerva upon Scroll.

Vine Mounting.

Fragment of Foliage.

Reverse of Leaf.

Leaf from base of Column of Trajan.

Ornamental Column.

Ornamented Base.

V.—TITLE TO PROPERTY, INCUMBRANCES, ETC.

The property is free from all incumbrances.

VI.—OTHER ACADEMIC PROPERTY.

There is no other property belonging to the Academy than the *lot*, building, library, text-books, casts, models, and cabinet of natural history, described previously, except fuel, stationery, and furniture, partly worn, the present value of which cannot be stated with certainty.

VII.—DEBT.

The Academy is free from debt.

VIII.—BOOKS AND APPARATUS COMPARED WITH CATALOGUES, ETC.

All the books and articles of apparatus possessed by the Academy have, since the date of the last Report, been, by or under the direction of the Board, carefully examined and compared with the original catalogues or inventories of the books and apparatus belonging to the Academy; and on such examination and comparison, all the books and apparatus belonging to the Academy, and which ought to be in its possession, were duly found to be in such possession, in good order and condition.

IX.—SUMMARY STATEMENT.

the *estimated* value of Academic property, as described in the part of this Report, is as follows :

Value of Academic lot, buildings, and furniture, .	\$121,536 12
Value of Library, ...	11,500 00
Value of Text-Books, ...	12,000 00
Value of Philosophical Apparatus, ...	9,000 00
Value of Casts, Models, &c., ...	1,500 00

Balance to be expended for Library Books.....	\$294

III.—MONEY RAISED AND GRANTED FOR PURCHASE OF BOOKS AND APPARATUS.

None, except as stated in the preceding part of this report.

XIV.—DEPARTMENTS.

OFFICERS OF INSTRUCTION AND GOVERNMENT.

The studies are pursued under the following Academic Officers, appointed by the Board of Education.

A Principal, who shall be Professor of Moral, Intellectual, and Political Philosophy.

A Professor of the Latin and Greek Languages and Literature.

A Professor of Chemistry and Physics.

A Professor of Pure Mathematics.

A Professor of Mixed Mathematics.

A Professor of History and Belles-Lettres.

A Professor of English Language and Literature.

A Professor of French Language and Literature.

A Professor of Spanish Language and Literature.

A Professor of German Language and Literature.

A Professor of Drawing.

A Professor of Natural History and Physiology.

An Adjunct-Professor in the Department of Philosophies.

An Adjunct-Professor in the Department of Mathematics.

And as many tutors as may be from time to time required.

The Faculty consists of the Professors who, conformably to the classification of studies pursued in the Academy, are at the head of the following departments :

Philosophies,	History and Belles-Lettres,
Ancient Languages,	Pure Mathematics,
English Language,	Mixed Mathematics,
Modern Languages,	Physical Sciences.

XV.—TEACHERS AND OFFICERS EMPLOYED.

The whole number of teachers employed in the Academy on the said 1st day of July, 1860, was twenty-seven. The names, the department instruction, and the annual salary of each, are as follows :

Orace Webster, LL.D., President of the Faculty, and Professor of Moral, Intellectual, and Political Philosophy.....	\$3000
John Jason Owen, D.D., Vice-Principal and Professor of the Ancient Languages and Literature.....	2500
Polcott Gibbs, M.D., Professor of Chemistry and Physics.....	2000
Erardus Beekman Docharty, LL.D., Professor of Pure Mathematics, and Secretary of the Faculty.....	2000
John Augustus Nichols, A.M., Professor of Mixed Mathematics.....	2000
Charles Edward Anthon, A.M., Professor of History and Belles-Lettres....	2000
John Graeff Barton, A.M., Professor of the English Language and Literature.....	2000
Jan Roemer, LL.D., Professor of the French Language and Literature...	2000
Gustin José Morales, LL.D., Professor of the Spanish Language and Literature.....	1200
Theodore Gustav Glaubenskle, Professor of the German Language and Literature.....	2000
Paul Peter Duggan, N.A., Professor of Drawing and the Arts of Design. (Absent in Europe, on leave).....	
German Joseph Aloys Körner, Ph. D., Acting Professor of Drawing.....	2000
Robert Ogden Doremus, M.D., Professor of Natural History, Physiology, Anatomy, and Hygiene.....	1000

XVII.—COMPOSITION AND DECLAMATION.

Students are required to be exercised in Composition and Declamation once a month, during the year.

XVIII.—NUMBER OF STUDENTS.

(A.) The whole number of Students (including Classical and all others) taught in the Academy during the first Academic term ending on the 15th day of February, 1860, was seven hundred and twenty-one (721), including fourteen Resident Graduates.

The whole number of Students (including Classical and all others) taught in the Academy during the second Academic term ending on the 17th day of July, 1860, was six hundred and eighty-six (686), including five Resident Graduates.

(B.) The whole number of Students (including Classical and all others) taught in the Academy during the said Academic year ending on the said 17th day of July, 1860, was seven hundred and twenty-three (723).

(C.) The whole number of Students belonging to the Academy on the said 17th day of July, 1860, or who belonged to it during part of the year ending on that date, and who are claimed by the Board of Education to have pursued for four months of said Academic year, or upwards, Classical studies, or the higher branches of an English education, or both, according to the true intent and meaning of the ordinance of the Regents of the 20th of October, 1853, was six hundred and forty-seven (647).

A schedule of the names, ages, and studies of the said students, so claimed by the said Board of Education to have pursued classical studies, or the higher branches of English education, or both, is hereunto annexed, duly verified by oath, as required by the law of the State, and the ordinance of the Regents.

XIX.—PRICES OR RATES OF TUITION.

The Institution being supported by the city, no charge is made for tuition.

XX.—GRATUITOUS INSTRUCTION.

Instruction is gratuitous to all the Students of the Academy.

XXI.—ACADEMIC TERMS, VACATIONS, COMMENCEMENT, ETC.

The Academic year is divided into two terms; the first commencing on the third Wednesday of September, and ending on the Friday preceding the first Monday of February; the second, commencing at the end of the first examination, (which continues eight days,) and ends on the Tuesday before the third Wednesday of July in each year.

VACATIONS.

There are three vacations in each Academic year; the Summer Vacation, from commencement to the Tuesday before the third Wednesday in September, inclusive; the Winter Vacation, from the 25th day of De

ember, to the 1st day of January, inclusive; the Spring Vacation, from the last day of April, inclusive, one week.

There are no Academic exercises on Saturday, on the day celebrated as the anniversary of American Independence, and on Thanksgiving day.

END OF ACADEMIC YEAR, AND COMMENCEMENT.

The Academic year of the Academy ends on the *Tuesday before the Third Wednesday of July*, in each year, and on which day the Annual Commencement takes place.

XXII.—SUMMARY STATEMENT OF THE AVERAGE EXPENSES OF STUDENTS IN THE ACADEMY, FOR TUITION, BOARD, ETC.

The Academy being supported by the city, no charge is made for tuition or board. Students are not allowed to remain in the Academy after the daily exercises are over. They reside or board with their parents or guardians.

XXIII.—BOOKS, ETC., RECEIVED FROM THE STATE.

The books received from the State, through the Regents of the University, or otherwise, for the use of the Academy, and now in its library, in good condition, are the following :

Natural History of the State of New York	15 vols

XXIV.—PHYSICAL EDUCATION

No distinct or separate provisions are made for physical education.

TERMS OF ADMISSION, EXAMINATION, ETC.

The examination of candidates for admission takes place immediately after the general examination, in July, and continues at the same hours every day until concluded. No student can be admitted to the Academy unless he resides in the city, be fourteen years of age, shall have attended the common schools in the city twelve months, and pass a good examination in

Spelling,	Algebra, as far as quadratic equations,
Reading,	inclusive,
Writing,	Geography,
English Grammar,	History of the United States,
Arithmetic,	Constitution of the United States,
Elementary Book-keeping.	

No candidate can be examined for admission unless he shall present to the Principal of the Academy a certificate in the form prepared by the Executive Committee, signed by the Principal of the School or Schools of which he has been a member, and specifying the age of the candidate, the Common Schools of this city which he has attended, and the length of time of his attendance in each. If the number qualified for admission be more than can be admitted, the preference is to be given to those who have attended the Common Schools the greater period.

At either of the regular examinations, members may be admitted to one or all of the classes, to pursue the studies of any one or more departments, provided they shall have attended the Common Schools the requisite period—shall be of the proper age—shall pass an examination in the requisites for admission, and also an examination satisfactory to the Faculty, in the previous studies of the class or departments to which they wish to be admitted.

No person is allowed to be present at the examination for admission except the instructors in the Academy, the members of the Board of Education and other school officers; neither the names of the candidates, nor the schools from which they come, are made known to the instructors conducting the examinations, but each candidate is designated during such examination by a number given to him on a card by the Principal.

Those students only who are afterwards ascertained to have passed a good examination, are admitted, and their names entered upon the rolls of the Academy.

There are two examinations during the Academic year. The first, commencing on the first Monday of February, is held for the purpose of testing the capacity of the student for advancement, and continues eight days. The second (for advancement), commencing on the third Monday before commencement, continues eight days, at the close of which candidates for admission are examined. These examinations are public, and no student is allowed to advance to the next class without being found qualified for such advancement. Students of the Introductory class are not allowed to advance to the Freshman class unless they are qualified in every respect, according to the By-Laws of the Board of Education.

The members of each class are examined by oral and written questions in the same study.

The admission of candidates takes place but once in the Academic year, and not semi-annually as heretofore; but candidates may be admitted at either of the regular examinations, to any of the classes, provided they comply with the terms for admission, as to attendance at the Common Schools, shall be of the proper age, shall pass an examination in the requisites for admission, and an examination also, satisfactory to the Faculty, in the previous studies of the class or department to which they wish to be admitted.

COURSE OF STUDIES.

The course of studies pursued in the Academy are the following, and are at the option of the students, viz. :

A full course with Ancient Languages.

A full course with Modern Languages.

A partial course, embracing any studies less than either of the full courses.

The full course of Ancient Languages comprises Latin, Greek, and any modern language at the option of the student.

The full course of Modern Languages comprises French, German, and Spanish. The order in which they are pursued is at the option of the student on commencing the course.

The partial course of languages comprises any language or languages, at the option of the student, either as pursued in the full course or in a special course of one year, intended for such students as may have immediate occasion for the use of any of the above-named languages.

The time allotted to the study of each language is laid down in the following schedule, which exhibits the number of recitations per week for each class and term of the Academic year :

The choice of each student as to the course of studies he wishes to pursue, must be made in writing at the time of his admission, and registered and filed at the Academy. It must be made by the parent or guardian, or by the parent or guardian be submitted in writing to the discretion of the Faculty.

The classes are annual, and the full course of studies embraces five years, of two terms each.

DEGREES.

The Board of Education is authorized by law to confer the usual Collegiate Degrees, on the recommendation of the Faculty. The degrees are *Bachelor of Arts*, for those who have pursued a full course with ancient languages ; *Bachelor of Sciences*, for those who have pursued a full course with modern languages, and the degrees of *Master of Arts* and *Master of Sciences*.

The Faculty recommend no one as a candidate for either degree whose average standing in any study of the Senior year has fallen below three-fifths of the maximum. Each member of the graduating class is required to write a composition for oral delivery, to be sent in one week before Commencement. Orations and dissertations written for this occasion are not to exceed ten minutes each in length, with the exception of the Valedictory, Salutatory, and Philosophical Orations, which may be extended to twelve minutes.

A Bachelor of Arts, or of Sciences, of three years' standing, may be admitted to the degree of *Master of Arts*, or to that of *Master of Sciences*, provided he show, to the satisfaction of the Faculty, that in the interval he has been engaged in some literary or scientific pursuit, and has sustained a good moral character ; application to be made either personally or by letter, at least one month before Commencement, accompanied by an original paper on any subject, and certified under his own hand to be his own composition, written within six months before his application.

LIBRARY.

The Library contains a large collection of valuable and well-selected books, and is increasing by the additions being made to it, from time to time, by funds appropriated by the Regents of the University of the State of New York, from the Literature Fund, and from donations and bequests by private citizens.

Students of the Senior, Junior, Sophomore, and Freshmen classes are allowed to draw books from the Library on alternate Fridays during term time, under certain conditions. Those who do not obtain *two-thirds* of the maximum, have received any demerit marks for misconduct, or have not been punctual in their attendance, are not entitled to the privileges of the Library.

The Professors and Tutors have access to the Library at all times, and

enjoy the right of taking books therefrom, under certain restrictions ; and also the privilege of consulting the books in the Library, at all hours of the daily session of the Academy, on application to the Librarian. No books can be taken from the Library, *under any pretence whatever, by any person*, without the authority of the Librarian, and every book so taken is recorded in a register provided for that purpose.

No Library book is allowed to be retained by any instructor or student for a longer period than two weeks, without renewal.

Penalties are attached for defacing, mutilating, or losing books.

All books, whether Library books, books of reference, or text-books, delivered to any instructor or student, constitutes a charge against him of the cost of the book, to be paid for by him unless it be returned in good condition or its loss or injury satisfactorily accounted for to the Librarian ; *and in case of a student, unless it be paid for, or replaced without delay, he is liable to be dismissed from the Academy.* In cases of carelessness, and wonton injury of the books, punishment may be inflicted in addition to reparation.

It is believed that in a few years the Academy will possess one of the most valuable college Libraries in the State. It contains many works which probably can be found in but few even of our public Libraries. The works are mostly of a scientific and general character, and it contains a very limited number of works of a light and ephemeral character. In selecting books for the Library, particular reference is had to the wants both of the Instructors and Students.

MEDALS AND TESTIMONIALS.

The Pell Medal.

In 1849, Duncan C. Pell, Esq., placed in the hands of Trustees \$500 to be invested, and the income to be applied annually, forever, to procure a gold medal, to be awarded by them to the student in the Free Academy who shall have made the greatest proficiency in his general studies during the year.

In 1856, the above-named donor, by a deed of trust, authorized the Trustees of the said Fund, if to them it should be deemed expedient, to devote a portion of the income of the Fund invested in procuring a *silver medal*, to be awarded, from time to time, to such student as might become entitled thereto.

Number of Students who have pursued Classical Studies, or Studies in the Higher Branches of English Education, or both, for Four Months, or upwards.

All the students named in the foregoing Schedule, have pursued Classical Studies, and studies in the higher branches of English Education, as therein stated for four months, or upwards, (except those numbered 125, 167, 179, 402, 415, 425,) being in all six hundred and forty-seven, (647.)

City and County of New York, ss.: Horace Webster, being duly sworn, doth depose and say, that he is Principal of the New York Free Academy, situated in the city of New York, whose annual report to the Regents of the University is hereunto annexed; that said report is made in conformity to the latest instructions received from the Regents of the University, and in conformity to the Act of the Legislature of the State of New York, amendatory of the several School Acts, passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th, 1855; that the preceding Schedule contains a true statement of the names, ages, and studies of the several students belonging to the said Academy on the 17th day of July, 1860, or who belonged to it during part of said year ending on that day, and who are claimed to have pursued, for four months, or upwards, Classical Studies, or the higher branches of an English education, or both, according to the true intent and meaning of the Ordinance of the Regents of the 20th October, 1853, as set forth in the explanations which precede the Schedule; that none of said students are under the age of twelve years, and that such of them as are claimed to be classical students have actually pursued at this Academy, or elsewhere all the preliminary studies required by the rules of said institution, and by the 6th and 7th sections of said Ordinance of the said Regents, to make them such students, and have also read the books, or parts of books, specified in the preceding Schedule; that such of them as are claimed to be students of the higher branches of English Education, had, before they were considered as such students attained at this Academy, or elsewhere, such proficiency in reading and writing, and acquired such elementary or preliminary knowledge as is required by the 8th section of said Ordinance; that they have all subsequently pursued the requisite studies and performed the requisite exercises in composition and declamation as are required by the rules relating to the said Academy, and for the period of time required by the said Ordinance of the Regents to entitle the said Academy to a distributive share of the income of the Literature Fund; that such of said students as have not pursued, at this Academy, the said preliminary studies, have, on special examination duly made, before entering the said Academy, been found to have acquired the proficiency in said studies required by the said Ordinance, as set forth in the said explanation. All which this deponent affirms to be true, according to the best of his knowledge, information, and belief.

NATURAL HISTORY, PHYSIOLOGY, ETC.

3 Department of Natural History contains about three thousand ens, no additions having been made thereto since the date of the report.
page 24.

LABORATORY.

3 Laboratory of the Free Academy is well provided with the ary apparatus of glass and porcelain, and with an extensive suit mical preparations, to which additions are constantly made by ofessor having charge of the department. The Physical Cabinet 3 large, and contains most of the best French and German instru- 3 imported expressly for the Academy. This collection contains 3 apparatus necessary for the experimental illustration of the phe- 3 na of Light, Heat, Electricity, and Magnetism.

CABINET OF CHEMICAL AND PHYSICAL APPARATUS.

The following is a complete list of the Apparatus and of the Casts and Models in the Department of Fine Arts, belonging to the Free Academy:

PNEUMATICS.

Chamberlain's Air Pump.
 Condensing Syringe.
 Bell Jars for Air-Pump (3).
 Rubber and Hard-Glass.
 Magdeburg Hemispheres.
 Tyndal Pressure Apparatus.
 Bursting Squares (9).
 Wire Gauze for do.
 Hand Air-Pump.
 Gunns and Feather Glass.
 Water Hammer.
 Balance with Air-Globe and Counterpoise.
 Scale with Sliding Rod.
 Sacrometers 2.

HYDROSTATICS AND HYDRODYNAMICS.

Set of Glasses to Illustrate Equilibrium of Fluids.
 Hydrostatic Bellows.
 Archimedes' Screw.
 Working Models of Lifting and Forcing Pumps.
 Hero's Fountain.
 Barker's Mill.
 Glass Balloon (with Jar and Images).
 Hydrostatic Paradox.
 Hare's Apparatus for the Pressure of Liquids.
 Apparatus for Body immersed in a Liquid.
 Apparatus for the Decomposition of Water.

GALVANISM, MAGNETISM, ELECTRO-MAGNETISM, HEAT.

Bunsen's Battery of 50 pairs.
 Grove's Battery of 12 pairs (Platina Strips).
 Daniel's Batteries of 6 pairs.
 Wheatstone's Rheostat.
 Galvenometer (Suspension Thread).
 Vertical Galvanometer.
 Tangent's Compass.
 Large Simple Galvanometer.
 Decomposing Cell (2 Gas Tubes).
 Apparatus for Attraction and Repulsion of Currents.
 Contracting Helix.
 Magnet revolving around a Conductor.
 Conductor revolving around a Magnet.
 Magnet revolving on its own axis.
 Vibrating Wire (Magnet of three pieces).
 Revolving Spur Wheel.
 Gold Leaf Galvanoscope.
 De la Rive's Ring.
 Revolving Coil.
 Thermo-Electric Revolving Arch.
 Magnetizing Helix.
 Helix on Stand, with Iron Bar.
 Helialical Ring and Semicircles.
 Large Electro-Magnet.
 Revolving Armature.
 Reciprocating Engine.
 Revolving Electro-Magnet.
 Electro-Magnet, revolving with the Earth's Action.
 Clock-Work Electrotome.
 Magneto-Electric Machine (Brass Legs; quantity and intensity-Helices).
 Separable Helices and Handles (2).
 Slat Spirals (3 lbs. each; 2).
 Thermo-Electro Series (10 pairs).
 Thermo-Electro Rectangle.
 Ampere Electrepeter.
 Simple Bar Magnets (4).
 Compound Bar Magnet.

Simple U Magnet.
 Magnetic Needle on horizontal stand.
 Dipping Needle.
 Set of Steel Bars for Magnetization.
 More's Telegraph Model.
 Ruhmkorff's Apparatus for Induction.
 Diamagnetic Apparatus.
 Apparatus for fixing the Electric Light.
 Smee's Battery of 4 pairs.
 Pictet's Brass Mirror.
 Hot Water Cube.
 Regnault's Apparatus for Specific Heat.
 Melloni's Thermo-Electric Apparatus.
 Apparatus for Expansion of Solids.
 " " Conduction of Heat.
 Hydro-Oxygen Blowpipe.
 Davy's Safety Lamp (2).
 Blowpipe and Table.
 Wrede's Apparatus for Absorption.
 Ring and Ball for Expansion by Heat.
 2 Bulb Tubes for Expansion of Gases.
 2 " " " Liquids.
 1 Pyrometer.
 Mounted Diaphragm.
 Barton's Button.
 Freezing Apparatus.
 Thermometer of Biot.
 Pair of Gas Holders.
 Six models in wood to illustrate the subject of Light and Chry-
 tallography.

MATHEMATICS.

Theodolites (2) and Tripods.
 Surveyor's Compass (2) and Tripods.
 Level.
 Sextant.
 Quadrant.
 Artificial Horizon.
 Surveyor's Chain and Pins (2 sets).
 Measuring Tape.

Levelling Staves (2).

Rods (4).

Malby's Large Terrestrial Globe (and Compass).

Malby's Large Celestial Globe (and Compass).

Engineer's Transit.

Tangent Compass.

Plaster models of Oblique Arches, by Bardin, Paris (9).

Plaster models of Voussons, of an Oblique Arch, by Bardin,
Paris (31).

Models of Topography, with maps, by Bardin, Paris (9).

ACOUSTICS.

Bellows Apparatus, with Glass sides for Organ Pipes.

Pipe with Musical Scale.

Open Pipe C.

Vox Humana.

Parchment Pipe.

Pipe with Reed.

“ “ “ and Trumpet.

“ “ Glass Cylinder for observing Nodal Lines.

Monochord.

Tuning Fork.

Siren.

OPTICS.

Gregorian Reflecting Telescope, (2 feet focal length,) presented by
EDWARD W. SERRELL, Esq., N. Y.

Observing Telescope.

Concave Mirror (of 36 centimetres diameter).

Convex Mirror (of 25 centimetres diameter).

Plane Mirror (of 26 centimetres diameter).

Apparatus for Bouquet Experiment.

Double Convex Lens.

“ Concave “

Plano-Convex “

“ Concave “

Concave Convex “

Equilateral Prism.

Polyprism.

Achromatic Prism (variable angles).

Biot's Prism (compartments for volatile liquids).

Silberman's Heliostat.

Raspail's Microscope.

Oberhauser's "

Lawrence Smith's Apparatus for Solar Microscope.

" " Diffraction and Interference.

Nichol's Prism.

Diaphragms (1 circular and 1 rectilinear).

Apparatus for Colored Rings.

Noremberg's Apparatus (improved).

Soliel's Apparatus (for measuring optic axis of Crystals).

Collection of Crystals of one and two optic axis, viz :

Native Quartz.

Plate " (2 natural rotations).

Porte Objet.

Babinet's Compensators (2).

Plates Sulphate of Lime.

" Quartz (parallel to axis).

" Mica ($\frac{1}{2}$ wave length).

" Quartz.

" Oblique (Quartz crossed).

" Spar (perpendicular to axis).

" Tourmaline (perpendicular to axis).

" Beryl "

" Carbonate of Lead "

" Arragonite.

" Gypsum.

" Mica.

" Sulphate of Baryta.

Tempered Glasses (different forms).

Apparatus for Movable Hyperbolas.

Presses and 3 Glasses for Curves.

" " " Compression.

Fresnel's Apparatus for Double Refraction.

Parallelopipedons of Fresnel.

Stereoscopes (with Daguerreotypes, etc).

Collection of Colored Glasses for Absorption.

Rhombs of Spar.

Cylindrical Mirror (with pictures).

Apparatus for Rays of Spectrum.

Reflecting Goniometer.

Apparatus for Circular Polarization of Light.

Lamp for Optical Experiments, and box for the same.
 Goniometer of Charles and Malus.
 Achromatic Microscope.
 Contact Goniometer.
 Stand for Optical Instrument.
 Wave Machine.
 Deville's Lamp.

MECHANICS, ETC.

Lever, with Appendages, etc.
 Fixed and Movable Pulleys, and their Combinations.
 Loaded Cylinder and Inclined Plane.
 Double Cone and Inclined Bars.
 Pair of Tumblers.
 Model of the Wheel and Axle.
 " Inclined Plane.
 " Screw.
 " Capstan.
 " Crane.
 " Pile Driver.
 " Jack.
 Apparatus showing Action of Endless Screw.
 " " " Cog Wheels.
 Atwood's Machine.
 Whirling Table.
 Ten pieces of Apparatus belonging to Whirling Table.
 Roberval's Balance.
 Compound Lever.
 Weights, and Stand for Weights.
 Ivory Bolls on Stand (to illustrate collision).
 Apparatus showing the Angle of Reflection.
 Bohnenberger's Machine (for showing the position maintained by
 the axis of the earth in its rotation).
 Pulley, with concentric grooves.
 Apparatus for showing that the part of a pulley enveloped by the
 cord can be less or greater.
 Apparatus illustrating Parallelogram of Forces.
 Roemer's Carriage Axle with Vibrating Wheels.
 Gyroscope.

MISCELLANEOUS.

Oersted's Apparatus for Compression of Water.
 Dumas' Apparatus for Density of Vapors.
 Guy Lussac's " Tension "
 Screen for Optical Experiments.
 Hygrometer.
 Daguerreotype Apparatus (complete).
 Apparatus for Maximum Density of Water.
 Anemometer.
 Divided Scales (4).
 Breguet's Metallic Thermometer.
 Chemical Balance.
 Common "
 Regnault's Eudiometer.
 Elliptical Mercury Trough (for Reflexion).
 Sundries—Retorts, Crucibles, Stills, Alembics, etc., etc.

500 specimens in Conchology, presented by TOWNSEND HARRIS, Esq.
 2,200 " Mineralogy.
 300 " Geology.
 3 Charts Illustrating Geology.
 4 " " Physical Geography.

PHYSIOLOGY, ETC.

Manikin.
 Skeleton.
 Separated Skull.
 Enlarged Model of the Eye.
 " " " Ear.
 " " " Larynx.
 5 Anatomical Charts, life size.
 Apparatus for Physiological Experiments.
 Endosmosis and Exosmosis.

FINE ARTS—CASTS AND MODELS.

This is a choice collection, and affords extraordinary advantages (perhaps unequalled in this country) for the study of ornament and for the general purposes of art. It may be classified as follows :

1st.—CAST OF ELGIN MARBLES.

VI.—OTHER ACADEMIC PROPERTY.

There is no other property belonging to the Academy than the lot, building, library, text-books, casts, models, and cabinet of natural history, described previously, except fuel, stationery, and furniture, partly worn, the present value of which cannot be stated with certainty.

VII.—DEBT.

The Academy is free from debt.

VIII.—BOOKS AND APPARATUS COMPARED WITH CATALOGUE, ETC.

All the books and articles of apparatus possessed by the Academy have, since the date of the last Report, been, by or under the direction of the Board, carefully examined and compared with the original catalogues or inventories of the books and apparatus belonging to the Academy; and on such examination and comparison, all the books and apparatus belonging to the Academy, and which ought to be in its possession, were duly found to be in such possession, in good order and condition.

IX.—SUMMARY STATEMENT.

The total *estimated* value of Academic property, as described in the preceding part of this Report, is as follows :

Present value of Academic lot, buildings, and furniture,	\$123,451 67
Present value of Library, ...	12,265 00

XVII.—COMPOSITION AND DECLAMATION.

Students are required to be exercised in Composition and Declamation once a month, during the year.

XVIII.—NUMBER OF STUDENTS.

(A.) The whole number of Students (including Classical and all others) taught in the Academy during the first Academic term ending on the 14th day of February, 1861, was six hundred and seventy-five (675), including five Resident Graduates.

The whole number of Students (including Classical and all others) taught in the Academy during the second Academic term ending on the 16th day of July, 1861, was six hundred and thirty-nine (639), including five Resident Graduates.

(B.) The whole number of Students (including Classical and all others) taught in the Academy during the said Academic year ending on the said 16th day of July, 1861, was six hundred and seventy-seven (677).

(C.) The whole number of Students belonging to the Academy on the said 16th day of July, 1861, or who belonged to it during part of the year ending on that date, and who are claimed by the Board of Education to have pursued for four months of said Academic year, or upwards, Classical studies, or the higher branches of an English education, or both, according to the true intent and meaning of the ordinance of the Regents of the 20th of October, 1853, was six hundred and thirty-five (635).

A schedule of the names, ages, and studies of the said students, so claimed by the said Board of Education to have pursued classical studies, or the higher branches of English education, or both, is hereto annexed, duly verified by oath, as required by the law of the State, and the ordinance of the Regents.

XIX.—PRICES OR RATES OF TUITION.

The Institution being supported by the city, no charge is made for tuition.

XX.—GRATUITOUS INSTRUCTION.

Instruction is gratuitous to all the Students of the Academy.

XXI.—ACADEMIC TERMS, VACATIONS, COMMENCEMENT, Etc.

The Academic year is divided into two terms; the first commencing on the third Wednesday of September, and ending on the Friday preceding the first Monday of February; the second, commencing at the end of the first examination, (which continues eight days,) and ends on the Tuesday before the third Wednesday of July in each year.

VACATIONS.

There are three vacations in each Academic year; the Summer Vacation, from commencement to the Tuesday before the third Wednesday in September, inclusive; the Winter Vacation, from the 25th day of De-

ember, to the 1st day of January, inclusive; the Spring Vacation, from the last day of April, inclusive, one week.

There are no Academic exercises on Saturday, on the day celebrated as the anniversary of American Independence, and on Thanksgiving day.

END OF ACADEMIC YEAR, AND COMMENCEMENT.

The Academic year of the Academy ends on the *Tuesday before the Third Wednesday of July*, in each year, and on which day the Annual Commencement takes place.

XXII.—SUMMARY STATEMENT OF THE AVERAGE EXPENSES OF STUDENTS IN THE ACADEMY, FOR TUITION, BOARD, ETC.

The Academy being supported by the city, no charge is made for tuition or board. Students are not allowed to remain in the Academy after the daily exercises are over. They reside or board with their parents or guardians.

XXIII.—BOOKS, ETC., RECEIVED FROM THE STATE.

The books received from the State, through the Regents of the University, or otherwise, for the use of the Academy, and now in its library, in good condition, are the following :

Catalogue of the New York State Library.....	3 “
New York Meteorology, 1826-1850.....	1 “

XXIV.—PHYSICAL EDUCATION.

No distinct or separate provisions are made for physical education.

TERMS OF ADMISSION, EXAMINATION, Etc.

The examination of candidates for admission takes place immediately after the general examination, in July, and continues at the same hours every day until concluded. No student can be admitted to the Academy unless he resides in the city, be fourteen years of age, shall have attended the common schools in the city twelve months, and pass a good examination in

Spelling,	Algebra, as far as quadratic equations,
Reading,	inclusive.
Writing,	Geography,
English Grammar,	History of the United States,
Arithmetic,	Constitution of the United States,
	Elementary Book-keeping.

No candidate can be examined for admission unless he shall present to the Principal of the Academy a certificate in the form prepared by the Executive Committee, signed by the Principal of the School or Schools of which he has been a member, and specifying the age of the candidate, the Common Schools of this city which he has attended, and the length of time of his attendance in each. If the number qualified for admission be more than can be admitted, the preference is to be given to those who have attended the Common Schools the greater period.

At either of the regular examinations, members may be admitted to one or all of the classes, to pursue the studies of any one or more departments, provided they shall have attended the Common Schools the requisite period—shall be of the proper age—shall pass an examination in the requisites for admission, and also an examination satisfactory to the Faculty, in the previous studies of the class or departments to which they wish to be admitted.

No person is allowed to be present at the examination for admission except the instructors in the Academy, the members of the Board of Education and other school officers; neither the names of the candidates, nor the schools from which they come, are made known to the instructors conducting the examinations, but each candidate is designated during such examination by a number given to him on a card by the Principal.

Those students only who are afterwards ascertained to have passed a good examination, are admitted, and their names entered upon the rolls of the Academy.

There are two examinations during the Academic year. The first commencing on the first Monday of February, is held for the purpose of testing the capacity of the student for advancement, and continues eight days. The second (for advancement), commencing on the third Monday before commencement, continues eight days, at the close of which candidates for admission are examined. These examinations are public, and no student is allowed to advance to the next class without being found qualified for such advancement. Students of the Introductory class are not allowed to advance to the Freshman class unless they are qualified in every respect, according to the By-Laws of the Board of Education.

The members of each class are examined by oral and written questions in the same study.

The admission of candidates takes place but once in the Academic year, and not semi-annually as heretofore; but candidates may be admitted at either of the regular examinations, to any of the classes, provided they comply with the terms for admission, as to attendance at the Common Schools, shall be of the proper age, shall pass an examination in the requisites for admission, and an examination also, satisfactory to the Faculty, in the previous studies of the class or department to which they wish to be admitted.

COURSE OF STUDIES.

The course of studies pursued in the Academy are the following, and are at the option of the students, viz :

A full course with Ancient Languages.

A full course with Modern Languages.

A partial course, embracing any studies less than either of the full courses.

The full course of Ancient Languages comprises Latin, Greek, and any modern language at the option of the student.

The full course of Modern Languages comprises French, German, and Spanish. The order in which they are pursued is at the option of the student on commencing the course.

The partial course of languages comprises any language or languages, at the option of the student, either as pursued in the full course or in a special course of one year, intended for such students as may have immediate occasion for the use of any of the above-named languages.

The time allotted to the study of each language is laid down in the following schedule, which exhibits the number of recitations per week for each class and term of the Academic year :

The choice of each student as to the course of studies he wishes to pursue, must be made in writing at the time of his admission, and registered and filed at the Academy. It must be made by the parent or guardian, or by the parent or guardian be submitted in writing to the discretion of the Faculty.

The classes are annual, and the full course of studies embraces five years, of two terms each.

DEGREES.

The Board of Education is authorized by law to confer the usual Collegiate Degrees, on the recommendation of the Faculty. The degrees are *Bachelor of Arts*, for those who have pursued a full course with ancient languages; *Bachelor of Sciences*, for those who have pursued a full course with modern languages, and the degrees of *Master of Arts* and *Master of Sciences*.

The Faculty recommend no one as a candidate for either degree whose average standing in any study of the Senior year has fallen below three-fifths of the maximum. Each member of the graduating class is required to write a composition for oral delivery, to be sent in one week before Commencement. Orations and dissertations written for this occasion are not to exceed ten minutes each in length, with the exception of the Valedictory, Salutatory, and Philosophical Orations, which may be extended to twelve minutes.

A Bachelor of Arts, or of Sciences, of three years' standing, may be admitted to the degree of *Master of Arts*, or to that of *Master of Sciences*, provided he show, to the satisfaction of the Faculty, that in the interval he has been engaged in some literary or scientific pursuit, and has sustained a good moral character; application to be made either personally or by letter, at least one month before Commencement, accompanied by an original paper on any subject, and certified under his own hand to be his own composition, written within six months before his application.

LIBRARY.

The Library contains a large collection of valuable and well-selected books, and is increasing by the additions being made to it, from time to time, by funds appropriated by the Regents of the University of the State of New York, from the Literature Fund, and from donations and bequests by private citizens.

Students of the Senior, Junior, Sophomore, and Freshmen classes are allowed to draw books from the Library on alternate Fridays during term time, under certain conditions. Those who do not obtain *two-thirds* of the maximum, have received any demerit marks for misconduct, or have not been punctual in their attendance, are not entitled to the privileges of the Library.

The Professors and Tutors have access to the Library at all times,

and enjoy the right of taking books therefrom, under certain restrictions ; and also the privilege of consulting the books in the Library, at all hours of the daily session of the Academy, on application to the Librarian. No books can be taken from the Library, *under any pretence whatever, by any person*, without the authority of the Librarian, and every book so taken is recorded in a register provided for that purpose.

No Library book is allowed to be retained by any instructor or student for a longer period than two weeks, without renewal.

Penalties are attached for defacing, mutilating, or losing books.

All books, whether Library books, books of reference, or text-books, delivered to any instructor or student, constitutes a charge against him of the cost of the book, to be paid for by him unless it be returned in good condition or its loss or injury satisfactorily accounted for to the Librarian ; *and in case of a student, unless it be paid for, or replaced without delay, he is liable to be dismissed from the Academy.* In cases of carelessness, and wanton injury of the books, punishment may be inflicted in addition to reparation.

It is believed that in a few years the Academy will possess one of the most valuable college Libraries in the State. It contains many works which probably can be found in but few even of our public libraries. The works are mostly of a scientific and general character, and it contains a very limited number of works of a light and ephemeral character. In selecting books for the Library, particular reference is had to the wants both of the Instructors and Students.

MEDALS AND TESTIMONIALS.

The Pell Medal.

In 1849, Duncan C. Pell, Esq., placed in the hands of Trustees \$500 to be invested, and the income to be applied annually, forever, to procure a gold medal, to be awarded by them to the student in the Free Academy who shall have made the greatest proficiency in his general studies during the year.

In 1856, the above-named donor, by a deed of trust, authorized the Trustees of the said Fund, if to them it should be deemed expedient, to devote a portion of the income of the Fund invested in procuring a *silver medal*, to be awarded, from time to time, to such student as might become entitled thereto.

Present Trustees of the Fund.

WILLIAM E. CURTIS, Esq.
HORACE WEBSTER, LL. D.
SHEPARD KNAPP, Esq.

The Burr Medal.

In 1850, Edwin Burr, Esq., created a similar trust for a gold medal, to be awarded annually, forever, to the best mathematician in the highest class in the Free Academy.

In 1856, a similar trust was created for procuring a silver medal, to be awarded upon the same terms as the above.

Present Trustees of the Fund.

Number of Students who have pursued Classical Studies, or Studies in the Higher Branches of English Education, or both, for Four Months, or upwards.

All the students named in the foregoing Schedule, have pursued Classical Studies, and studies in the higher branches of English Education, as therein stated, for four months, or upwards, (except those numbered 140, 256, 261, 332,) being in all six hundred and thirty-six (636).

City and County of New York, ss.: Horace Webster, being duly sworn, doth depose and say, that he is Principal of the New York Free Academy, situated in the city and county of New York, whose annual report to the Regents of the University of the State of New York is hereunto annexed; that said report is made in conformity to the latest instructions received from the said Regents, and in conformity to the Act of the Legislature of the State of New York, amendatory of the several School Acts, passed July 3d, 1851, and of the Act amendatory thereto, passed March 9th, 1855; that the preceding Schedule contains a true statement of the names, ages, and studies of the several students belonging to the said Academy on the 16th day of July, 1861, or who belonged to it during part of said year ending on that day, and who are claimed to have pursued, for four months, or upwards, Classical Studies, or the higher branches of an English education, or both, according to the true intent and meaning of the Ordinance of the Regents of the 20th October, 1853, as set forth in the explanations which precede the Schedule; that none of said students are under the age of twelve years, and that such of them as are claimed to be classical students have actually pursued at this Academy, or elsewhere, all the preliminary studies required by the rules of said institution, and by the 6th and 7th sections of said Ordinance of the said Regents, to make them such students, and have also read the books, or parts of books, specified in the preceding Schedule; that such of them as claimed to be students of the higher branches of English Education, had, before they were considered as such students, attained at this Academy, or elsewhere, such proficiency in reading and writing, and acquired such elementary or preliminary knowledge as is required by the 8th section of said Ordinance; that they have all subsequently pursued the requisite studies and performed the requisite exercises in composition and declamation as are required by the rules relating to the said Academy, and for the period of time required by the said Ordinance of the Regents to entitle the said Academy to a distributive share of the income of the Literature Fund; that such of said students as have not pursued, at this Academy, the said preliminary studies, have, on special examination duly made, before entering the said Academy, been found to have acquired the proficiency in said studies required by the said Ordinance, as set forth in the said explanation. All which this deponent affirms to be true, according to the best of his knowledge, information, and belief.

HORACE WEBSTER.
